

### Online Registration Instructions:

Registration is done through our school management program, Sycamore Education. Returning families should log on, then in the blue index box click on My School/Enrollment/Online Portal. Any family that does not have a log in should contact the school office. Since you are a returning family, most of your information will already be there. Make sure it is correct and then continue to reply to all required fields.

New families should [click here](#) to start the registration process. You will see a log in box. Underneath the log in box on the right side, click on the work "register" and then "I need a new account." Follow the prompts to complete the online application.
